

Kishan Singh Chauhan

Software Developer - React

Email: kishan8318singh@gmail.com **Mobile:** +91 8318221608 **LinkedIn:** <https://www.linkedin.com/in/kishansinghchauhan07/>

Motivated software developer with extensive experience in building high-performance, scalable web applications. Proven track record of driving user engagement, optimizing web performance, and delivering on-time, high-quality solutions. Eager to use React, JavaScript, and web technologies to contribute to exciting products.

Skills

- React
- Javascript
- Typescript
- Nextjs
- Redux
- Unit Testing
- React Query
- Web Performance Optimization
- React Native
- Design System
- Nodejs (Nestjs - Basic)

Experience

Software Developer - QuillBot

February 2023 - Present

- Spearheaded the development of new features for the Grammar Checker tool, enhancing user engagement, and revamping the tool and functionality. After these improvements, we saw a **15%** increase in user engagement with the interface, with more users exploring additional features of the Grammar Checker.
- Developed and implemented features focused on improving user retention, premium upsell, and cross-sell opportunities within QuillBot's suite of tools. After some of the premium upsell experiments, we achieved an **8%** increase in premium conversions specifically from the Grammar Checker tool.
- Developed and maintained high-quality, clean, and scalable code, following best practices for code quality and reusability.
- Improved webpage interactions and optimized **performance** to deliver a seamless user experience of the tool.
- Collaborated with cross-functional teams to discuss and implement improvements to QuillBot's interface and overall functionality.
- Helped and supported other developers, ensuring consistent code quality and knowledge sharing across the team.
- Contributed to **A/B testing** and iterative improvements to maximize conversion rates and user satisfaction.

Frontend Developer - Squareboat

January 2021 - January 2023

- Led end-to-end front-end development for websites, ensuring high performance, code quality, and **on-time deliveries**.
- Mentored a team of **10 developers**, providing guidance and support on various projects.
- Developed scalable, deployment-ready websites for industries including **healthcare, design agencies, inventory management, and e-commerce**.
- Continuously learned and implemented new technologies, sharing knowledge through tech talks and team collaboration.
- Worked closely with design and QA teams to ensure a seamless and high-quality user experience.
- Provided suggestions and feedback to clients, product owners, and teams to enhance project efficiency and product quality.

Frontend Developer Intern - Zappy AI

July 2020 - January 2021

- Developed and maintained features for the tool using vanilla JavaScript.
- Created interactive dashboards with D3.js to visualize automation script details and process data in charts.
- Learned and implemented new technologies to transition the codebase from vanilla JavaScript to React for improved scalability and maintainability.
- Collaborated with teams to enhance the dashboard's functionality and user experience.

Education

Bachelor of Technology

College of Engineering Roorkee
(2016-2020)

Others

Interests: watch football, play online games, music

Achievements: Top performer of the quarter (squareboat) -
(07/2021 - 09/2021) & (01/2022 - 03/2022)
